-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 12 September 2003 and 01 June 2004.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.
- 3) ☒ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Drawings

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: in Fig. 2, earth ground 134 mentioned on pg. 4 of the instant specification is not labeled properly (we see only a symbol for earth ground on the digitizer memory 108, earth ref. processor, and display); also, in Fig. 2, earth ref. processor 130 is not labeled properly, nor is the display 132; in Fig. 5, earth ground 234, is mentioned on line 18 of pg. 6 of the instant Specification but we only see a symbol for earth ground; in addition, we do not see a symbol and/or reference sign for earth ground on the earth ref. processor (230) or display (232) of Fig. 5. User ground 110 or 210 of Figs. 2 and 5 should also be labeled appropriately. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

2. Claims 19 and 20 (by dependence) are objected to because of the following informalities: Even though independent claim 19 stipulates "disconnecting the memory from the first ground," Applicant is encouraged to include the following language seen in all other independent claims, namely, independent claims 1 and 10: "wherein said first and second grounds are electrically isolated." This is to clearly dictate "channel isolation" as described in the instant disclosure. Appropriate correction is required.

Allowable Subject Matter

3. Claims 1-20 are allowable over the prior art of record. The prior art of record does not suggest or disclose the claimed combination of apparatus elements or method steps, most particularly, as per claims 1 and 10, the claimed "switch network having at least two switches for selectively switching said memory between said first and second grounds; wherein said first and second grounds are electrically isolated" in a "signal acquisition instrument" or "oscilloscope", and as per claim 19, in a "method of acquiring a signal," "...receiving a signal referenced to a first ground...disconnecting the memory from the first ground...referencing the memory to a second ground...processing the stored information...referenced to the second ground."

4. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See the attached PTO-892.

6. This application is in condition for allowance except for the following formal matters:

See above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patrick J. Assouad whose telephone number is 571-272-2210. The examiner can normally be reached on Tuesday-Friday, 6:30am-5:00pm.
